

WHAT DOES **NEVER ALONE** DO?

Two-thirds of people relapse¹ mere weeks after treatment.

Of course, there are many reasons why someone might relapse, and even though a relapse doesn't necessarily mean failure in recovery, not having access to the right resources is among the most common causes of a relapse.

Never Alone Recovery promotes success in recovery by ensuring that the individual has access to the rehabilitative resources and ongoing support necessary for stable sobriety.

Here are some of the services and support options we can offer you at absolutely zero cost.

WHAT IS NEVER ALONE RECOVERY?

Never Alone Recovery is more than just an organization. We're a lifeline for those who are in the throes of addiction as well as those whose previous attempts at recovery were unsuccessful.

✓ A RESOURCE

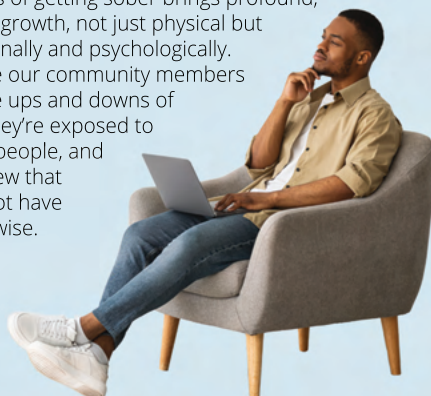

Although it doesn't compare to being in the throes of addiction, recovery is hard. That's why we aim to guide our community members through the labyrinthine recovery system.

✓ A COMMUNITY

We're more than a conduit between our community members and drug rehabs; Never Alone Recovery is a community of like-minded individuals who understand and support recovery.

✓ A PERSPECTIVE

The process of getting sober brings profound, life-altering growth, not just physical but also emotionally and psychologically. As we guide our community members through the ups and downs of recovery, they're exposed to resources, people, and points of view that they may not have seen otherwise.

BECAUSE WE'RE NEVER ALONE WE DO RECOVER.

Insufficient support—e.g. emotional, clinical, financial, social—is a common cause of post-treatment relapse. At Never Alone Recovery, our mission is to repair relationships and actualize untapped potential through the power of recovery.
